These details are for emergency care of my dog.

A breeder's care and responsibility lasts for the life of the dog so they will help with guidance/arranging temporary care in times of emergency or, in case of the worst options, with permanent rehoming.

If you have any problems please contact Rescue or the Secretary of the club via our Website.

If you do phone the Breeder or the Club, please let them know it is for urgent relocation of the dog – and whether temporary or permanent.
